## WORK EXPERIENCE

### SWE | Internship

Nov 2025 - Apr 2026

ilaundroid

Remote • Mangalore, Karnataka

- **Architected** and **deployed** scalable backend services, supporting **20,000+ concurrent users** with high availability.
- **Designed** and **optimized** RESTful APIs using **Node.js and Express**, achieving a **~40% reduction in response latency**.
- **Containerized** backend services with Docker and **implemented** Kubernetes orchestration for auto-scaling and fault-tolerant deployments.

**Technologies :** React, Express, MongoDB, Kubernetes, Redis, Docker

## PROJECTS

### Nexus-x | 🐙 Github

Backend and Devops engineer

- Built centralized logging, monitoring, and CI/CD pipelines (GitHub Actions + DevSecOps), reducing incident detection time by **~40%** and deployment failures by **~30%**
- Containerized services and implemented Kubernetes autoscaling, improving system throughput by **~2×** under high-load processing

**Tech :** React, Fastapi, Kubernetes, cli, postgres

### AI-native job board | 🐙 Github

Backend engineer and solutions architect

- Developed Chromium-based scraping pipelines, increasing job data coverage by **~3×** and enabling real-time ingestion
- Built AI-powered recommendation system using semantic search, improving candidate-job match relevance by **~35%**

**Tech :** React, Express, MongoDB, CI/CD

### Kafka | 🐙 Github

Backend and RL engineer

- Built adaptive React Native app with real-time UI personalization, increasing user engagement by **~25%**
- Applied Reinforcement Learning and Multi-Armed Bandits to optimize UI decisions, improving click-through rates by **~20%**

**Tech:** React Native, Python, Reinforcement Learning

**Tech :** React Native, Python, Reinforcement Learning, Multi-Armed Bandits

## SKILLS

|                                     |                                                                                                                                                    |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Core Skills :</b>                | Data Structures and Algorithms, Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS), System Design (HLD, LLD) |
| <b>Databases :</b>                  | PostgreSQL, MongoDB, Redis, Neo4j                                                                                                                  |
| <b>Devops &amp; Cloud :</b>         | Docker, Kubernetes, CI/CD, Jenkins, GitHub Actions, Linux                                                                                          |
| <b>Frameworks &amp; Libraries :</b> | React.js, Next.js, Node.js, Express.js, FastAPI                                                                                                    |
| <b>Programming Languages :</b>      | Go, TypeScript, JavaScript, Python                                                                                                                 |

## EDUCATION

**St. Joseph Engineering College** | Vamanjoor, Karnataka

Jun 2023 - Present

B.E. in Computer Science and Engineering

CGPA : 8.3

## AWARDS & ACHIEVEMENTS

- Runner-Up — HTF 4.0 Hackathon
